

Addition Strategies by Making Ten

What should be added to 8 to make a 10?

1. $8 + \square = 10$

What should be added to 7 to make a 10?

2. $7 + \square = 10$

What should be added to 9 to make a 10?

3. $9 + \square = 10$

What should be added to 5 to make a 10?

4. $5 + \square = 10$

What should be added to 3 to make a 10?

5. $3 + \square = 10$

What should be added to 6 to make a 10?

6. $6 + \square = 10$

What should be added to 1 to make a 10?

7. $1 + \square = 10$

What should be added to 2 to make a 10?

8. $2 + \square = 10$

What should be added to 4 to make a 10?

9. $4 + \square = 10$

What should be added to 10 to make a 10?

10. $10 + \square = 10$

Find the sum of 7 and 4.

11. $7 + 4 = 10 + \square = \square$

Find the sum of 8 and 5.

12. $8 + 5 = 10 + \square = \square$

Find the sum of 9 and 8.

13. $9 + 8 = 10 + \square = \square$

Find the sum of 8 and 7.

14. $8 + 7 = 10 + \square = \square$

Find the sum of 8 and 6.

15. $8 + 6 = 10 + \square = \square$
