

Relate Subtraction and Multiplication with Division

Find $15 \div 3$ using repeated subtraction.

1.

Find $42 \div 6$ using repeated subtraction.

2.

Find $20 \div 5$ using repeated subtraction.

3.

Find $32 \div 4$ using repeated subtraction.

4.

Find $40 \div 10$ using repeated subtraction.

5.

Find $24 \div 4$ using repeated subtraction.

6.

Find $35 \div 7$ using repeated subtraction.

7.

Find $48 \div 8$ using repeated subtraction.

8.

Find $27 \div 9$ using repeated subtraction.

9.

Find $18 \div 3$ using repeated subtraction.

10.

Determine which number correctly completes both the equations.

11. $20 \div 4 =$

$\times 4 = 20$

12. $25 \div 5 =$

$\times 5 = 25$

13. $24 \div 4 =$

$\times 4 = 24$

14. $28 \div 4 =$

$\times 4 = 28$

15. $45 \div 9 =$

$\times 9 = 45$
